

AccuTech Pan Oiler

Synova's AccuTech Pan Oiler provides the most accurate spraying technology of release agents. Advanced design and recipe-driven programming allows for precise control over the volume, rate, and pattern of release agent application and provides real-time spray verification. Specifically engineered to reduce oil usage, minimize waste, improve sanitation, and reduce maintenance time.

Features

- **Precise Pulse Width Modulation (PWM):** Spray nozzle control for accurate release agent placement within the pan
- **Absolute Positioning of Spray Nozzles:** Spray nozzle positions saved according to product with real-time adjustment
- **Oil Temperature Control:** Closed loop temperature control system
- **Integrated Mist Collector:** Small, easy to clean collector to minimize oil mist migration
- **Electronically Metered Oil Usage:** Verified with precise ultrasonic oil tank level control
- **Stainless Steel Tabletop Conveyor:** 1/2 HP shaft mounted 3 phase drive motor
- **Self-Centering Automatically Adjusted Pan Guides:** Position saved according to product
- **Stainless Steel Frame:** Includes removable stainless steel catch pan and hood with slide out feature for quick and easy access
- **Stainless Steel Casters:** Heavy-duty swivel casters with leveling adjustment
- **Operator Interface Controls:** Product, nozzle and guide positions, dosing, delays and timing, and oil temperature settings are all programmable
- **NEMA 4X Stainless Steel Electrical Enclosure**
- **UL, cUL Compliant Controls**
- **ANSI, USDA, and CE Compliant**

Optional Features

- **Infeed Magnetic Metering Conveyor**
- **Pneumatic Barrel Pump**
- **Locating Latch Mechanism:** Allowing oiler to be securely positioned to the line
